#### PRAISE FOR NEW LEAGUE

WATKINS THINKS IT STRONGER THAN AMERICAN LEAGUE IN 1900.

He Has Signed Fox to Captain the Team This Year-Clubs Are Already After Good Players.

W. H. Watkins and Charles Ruschaupt returned vesterday from the meeting of baseball magnates in Chicago, where the new American Association was formed, consisting of Indianapolis, Toledo, Columbus and Milwaukee in the east, and Kansas City, Omaha, Minneapolis and St. Paul in the west. The organization was formed under a ten years' agreement.

"We feel satisfied that the organization will be fully as strong, if not stronger, than any that Indianapolis has ever been in since the membership in the National League," said Mr. Watkins last evening. "The fact that the American Association will proceed to do business on the same basis as the American League and the National League, that is, we are under no agreement with any other organizations to alleys last Monday. The scores were as respect reservations, gives us a much broader field from which to select our players. We have the same opportunity to get the pick of the players as either the American or the National League, but of course cannot enter into competition with them on salaries. However, as we will not have to pay for the release of players, we will secure some very fast men. One of the clubs at the present time has a stronger team signed than was in the Western Association last season, in fact stronger than any club that was in the

"The fact that Tebeau, in Kansas City, is building a park that will cost him \$15,000, and that Stroebel, of Toledo, will build a new grand stand and make improvements gian hares, which were in the zenith of to his present park, shows that men who own the franchises expect to give attracions that will draw the people. As this is a neutral organization and at war with neither the American or National League Indianapolis people will in all probability have a chance to see both American and National League clubs here in April playing against the Indianapolis team. President Hickey has been empowered to engage a first-class staff of umpires, as the feeling of the members of this association is that first-class umpires are essential to good ball. The season will be for five months, starting about April 23, and a schedule of 140 games will be played. WILL HAVE GOOD TEAM.

"There is one thing certain-Indianapolis will have a stronger team than we have had at any time since the old Western League was organized, and that patrons can look to a first-class article of ball. We have signed William Fox, who played second base for Indianapolis last season, to again play that position and captain the

President Watkins says there need be no fear of Omaha's ability to draw in the new organization, as that city outdrew all the other cities in last year's Western League. The mileage in the new league will be about ,200 miles, between 2,600 and 3,000 miles less than in the American League in 1900. The League will draw from the following approximate populations, counting the towns near the cities connected by interurban lines: Indianapolis, 500,000; Columbus, 300,000; Toledo, 300,000; Milwaukee, 450,000; Minneapolis, 250,000; St. Paul, 240,000; Omaha, 240,000, and Kansas City, 500,000. The League represents the largest cities west of Pittsburg, excepting those where the American and National leagues are represented. It is compact and very strong. The magnates who attended the meeting in Chicago were somewhat surprised in meeting a man who is practically new in baseball politics, but showed them all how to carry his point and make deals that were astounding. He is Bryce, of Columbus. John Grim, manager of the Columbus One of the features to be introduced at | team, arrived in Indianapolis yesterday, after a three weeks' trip over the country in search of players for the Columbus team. President Watkins says Grim was exeedingly successful and has already secured a team that is stronger than some of the National League teams. Grim will not make known at his time the men he has The next meeting of the league will be held in Chicago about the middle of Jan-

#### BASKET BALL PRACTICE.

### he Plainfield Keelev Institute need but little training in preparation for

WAS ESTABLISHED AT PLAINFIELD, IND., IN 1891.

In the past eleven years thousands of men and women, who entered it the helpless victims of the drink or drug habits, left its doors cured and returned to their homes to become happy, useful, prosperous citizens. The man who drinks to excess is going but one way--down--down--only down. Little by little he is losing his money, his health and his friends. Soon, very soon, he will be face to face with ruin and death. Is there no escape? ANYTHING is better than the terrible prospect before him and his family unless he quits. Why not try the Keeley Cure? It has been given for twenty-two years. Over 300,000 persons have taken it, from senators to daily laborers. It never hurt any one, and there has been time enough to prove beyond doubt that it takes away the appetite, crave and necessity for alcohol and restores health.

All communications confidential. References to cured men in your community.
